

Lego® Club

A group for children on the autism spectrum (aged 5-7 & 8-12 years) designed to help their social development.

This can be an area of difficulty for children on the spectrum and developing these skills happens most successfully using favourite activities.

LEGO® Club focuses on building social confidence through the fun and engaging medium of Lego®.

Children will have the opportunity to collaborate with peers on meaningfully complex and challenging projects while developing friendships in the process.

This strengths-based therapy aims to help children develop social functioning skills in a relaxed and friendly environment.

LEGO® Club is delivered during school terms by our team of specialist therapists and educators.

Lego® Club is delivered at:
AQ Cairns
5-17 Marr Street
Edmonton QLD 4869
