

INCLUSIVE STRATEGIES FOR PRIMARY SCHOOL STUDENTS ON THE AUTISM SPECTRUM

Every student has the right to have access to education and care (ECEC) services and every student can benefit from meaningful participation. But what does this mean and how do we do this? If you are a professional working in a primary school, or are a parent/carer with a primary aged child, then this workshop is for you.

Participants will have the opportunity to learn more about how to provide opportunities for them to meaningfully participate in a primary school setting. This interactive workshop will highlight strategies for inclusion of primary school students on the autism spectrum as identified by research, experience, and feedback from students and school staff.

Key topics to be covered in this workshop include:

- Educational needs of students on the autism spectrum
- Universal Design for Learning
- Inclusive, practical strategies to support students on the autism spectrum
- Peer-mediated supports.

This workshop will be facilitated by a teacher with many years experience working with students on the autism spectrum.
