

CLUES TO BEHAVIOUR SUCCESS

This interactive workshop will explore why behaviours of concern may occur and provide an introduction to positive and proactive strategies for supporting young people on the autism spectrum.

If you have ever been in a situation where you do not feel equipped to support a young person to reduce their behaviours of concern, or you feel like you need a refresher, then this workshop is for you.

The facilitator has many years of experience teaching young people on the autism spectrum and has a passion for understanding and supporting behavioural success.

Key topics to be covered in this workshop include:

- Understanding underlying reasons for behaviour that may be of concern
- Modifying our response to behaviour that challenges us
- Positive, proactive strategies for reducing behaviour of concern.

This workshop will be facilitated by a teacher with many years experience working with students on the autism spectrum.

For primary school staff, parents/carers and other professionals
