## LEGO® Club

**A group designed to help young and school-aged children on the autism spectrum with their social development.**

This group uses LEGO®, alongside the expertise of AQ specialist therapists and educators, to facilitate and build on your child's social skills within a structured small group. This group is delivered during school terms.

Social development can be an area of difficulty for children on the spectrum and developing these skills happens most successfully using favourite activities.

LEGO® Club focuses on building social confidence through the fun and engaging medium of LEGO®.

Children will have the opportunity to collaborate with peers on meaningfully complex and challenging projects while developing friendships in the process.

This strengths-based therapy aims to help children develop social functioning skills in a relaxed and friendly environment.

**There is a fee for this group. Please contact us for a quote.**

\*Fees for Autism Queensland group programs are charged under the Capacity Building – Improved Daily Living section of your NDIS Plan. If you do not have funding in this specific Support Category, please discuss with your NDIS Local Area Coordinator or phone the NDIS on 1800 800 110.)
