

TRANSITION SUPPORTS

Supports to ensure a smooth and successful transition for your child's next educational step.

Scan me

These supports are available as an extension of or in combination with existing services.

Suitable for students transitioning to Prep, primary school, high school, or beyond.

We will support families and schools to work together to understand your child's individual support needs (e.g. communication, social participation, behaviour) and create a more inclusive environment.

Over 8-10 sessions, AQ's multidisciplinary transition supports team will guide you and your child through this exciting stage of their life. These sessions cover essential components including:

- Planning meetings and preparing for readiness and check-ins etc.
- Collaborative partnerships, individualised transition plans and strategies and provision of resources.
- Supported visits to schools/centres of your child's education setting and the provision of in-school support (approval from your child's school is required).
- Helping students transitioning out of school into work/university.

Co-designed with you, your child, and their school to ensure success.

We will spend time getting to know your child and family so we can understand what is important to you and what supports will help your child with their transition. We will work with you to develop personalised goals for your child and support you in building effective relationships with their school and staff. We will support your child alongside their peers, focusing on emotional, social, and learning development.

Sessions are available at AQ centres, your child's school, early childhood centre, vocational service, or home etc. Fees apply, NDIS funding may be used if applicable.
