AUTISM AND MENTAL HEALTH TRAINING

DELIVERED ONLINE OR
FACE-TO-FACE*

Fully-funded autism-specific training for mental health practitioners

Our scheduled and customised workshops provide Queensland mental health practitioners with tools and knowledge to better understand the autistic experience and deliver neurodiversity-affirming support to autistic adolescent and adult clients.

Key focus areas include:

- Deepening understanding of the autistic experience.
- Tailoring support to individual client needs.
- Addressing camouflaging, autistic burnout, and other mental health impacts.
- Adapting mental health treatments to be neurodiversity-affirming for autistic clients.

Please note: Face-to-face sessions are dependent on location and demand. Training is only for Queensland residents.
